1880—81.

Pursuant to the provisions of the City Charter the Board of Aldermen of Jersey City met at the Aldermanic Chamber, City Hall, on Tuesday, May 4, 1880, the first Tuesday after the first Monday in May.

The Board was called to order by the City Clerk at 8.35 o'clock p. m.

Alderman George D. Mackey of the 6th district was absent at the calling of the roll, but subsequently appeared and took his seat.

On motion of Alderman Reardon the Board took a recess for ten minutes.

On reassembling the roll was called and all the members were present.

The special committee appointed to wait upon his Honor the Mayor reported through Alderman Ringle, its chairman, a message from the Mayor recommending that the different Boards of the city government enforce a rigid economy in expenditures, a close scrutiny of all matters affecting the finances and the making of contracts where possible, &c.

The following resolution in relation thereto was offered by Alderman Fisher and adopted:

Resolved, That the message from the Mayor be received, printed in the minutes and five hundred copies printed in pamphlet form under the direction of the Committee on Printing, Stationery and Supplies, when appointed.

Said message being as follows:

MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, May 4, 1880.

To the Hon. the Board of Aldermen, of Jersey City;

Gentlemen—In accordance with the usual custom I herewith transmit to you my views in reference to matters affecting the interests of our city.

My views in general are that it is the duty of every department in the city to reduce its expenses to the lowest possible figure compatible with an efficient administration of city affairs.

The complicated system of government imposed upon us by the Legislature is necessarily more expensive than the ordinary form of government in our sister cities; we cannot remedy this, except by appeal to the Legislature, but we can economize in every department, and by a rigid scrutiny of every disbursement made by the city partially remedy the evil.

I shall deem it my duty to rigidly scrutinize every expenditure of the public money, and shall withhold my assent in every case where I deem the expenditure unnecessary or the price extravagant.

In the performance of this duty I hope to be aided by every member of the city government, and desire that every taxpayer will call my attention to any violation of the rules I have here laid down.

It is to be regretted that so large a portion of ratables of the city are exempt from taxation,

and that the property of railroad corporations, even when taxed, is assessed in a manner different than the property of our citizens. I believe the fair meaning of the amendment of the Constitution adopted by the people in 1875, in reference to taxation, was to compel corporations as well as individuals to bear their equal share of the public burdens of taxation.

The remedy for the inequality now existing is not, I am sorry to say, in the city government. We are powerless to remedy the evils arising from the unequal system of taxation now in force.

All we can do is to appeal to the Legislature to provide a system of taxation which will impose the same burdens upon all.

BOARD OF ALDERMEN.

The powers of your Board are limited by the charter, but I would call particular attention to the necessity of careful scrutiny of expenditures, and to recommend that all property of which you have control, not in use by the city, be sold, and the money used for payment of the public debt.

I would also call your particular attention to the granting of licenses by your Board, and to recommend a careful attention to this matter and to see that the ordinances are enforced, so that the many places, now doing business without licenses, and in violation of the city ordinances, be closed and the proprietors punished. Attention to the above recommendation will make the revenue, derived from licenses, a much larger source of income than at present.

BOARD OF POLICE

This department very efficiently performs its duties considering the large extent of territory required to be protected and the small number of men employed for that purpose.

To maintain this state of efficiency the rules should be strictly enforced and any officer violating his duties on more than one occasion should be dismissed from the service.

I think the Charity Hospital should be removed from its present location, the property on which it is situated is unfit for such use; it should be sold and the money realized therefrom used to purchase a new site and erect a substantial building thereon.

The large expenditure necessary for the hospital should induce a close scrutiny into all bills for supplies furnished it.

BOARD OF FIRE.

This department appears to be well and economically administered and will compare favorably with that of any other city.

The same necessity for careful scrutiny of purchases of supplies and repairs for this department exists as in the police department.

BOARD OF EDUCATION.

Our city is justly proud of its public schools. They compare favorably with any city in the Union.

There seems to be so much trouble in properly heating the school buildings that I am of the opinion that it would be true economy to replace the old furnaces by steam heaters.

A new school house should be erected to take the place of the one in Tonnele avenue, which is in so dilapidated a condition that it cannot be used.

Careful attention should be paid to taking of the school census, as the amount we receive from the State depends upon the number of children we have, and accurate enumeration will give us a large sum from the State, whilst a careless one will diminish the amount. The School Board should be very careful in its selection of the parties deputed to take this census.

I recommend to this Board also rigid economy in all purchases made by it.

BOARD OF PUBLIC WORKS.

This Board is one of the most important in the city, having control of all public improvements and the water supply.

Its expenditures are necessarily very large; I would recommend that so far as it is possible all work done by this Board be under contracts, so that we may have competitive bidding for the same.

All the streets especially main thoroughfares should be kept in repair, the sewage of the city should be carefully attended to, as the health

of the city in a great measure depends upon it.

I would also recommend that the Board have its offices in City Hall, as this will reduce expenses and better accommodate the citizens who desire to pay their taxes and water rents.

There should be a vault built in the City Hall for the preservation of official bonds and valuable documents, books and papers belonging to the city, the loss of which would be irreparable.

In reference to the expenditures on account of water made by the Board, I would recommend that they be made only upon resolution, and as far as possible to be furnished under contract.

I recommend to this Board that the ashes, refuse, and dirt collected by the city carts should be used in filling up the meadow lands wherever practicable.

The new reservoir, on which so much money has been expended, should be utilized at once, so as to secure to the city a larger and purer supply of water.

I would also particularly call your attention to the Morgan street dock. Last year you collected \$5,474.18, the expenses were \$2,084.12 for repairs and night watchman, and the interest for the property, amounts to \$8,750 per annum. This is a loss to the city. This dock should be a source of revenue. I recommend that your Board remedy this evil at once.

BOARD OF FINANCE AND TAXATION.

This Board has faithfully labored during the past year to sustain the city's credit and has succeeded in doing so under circumstances of the most embarrassing description.

I would recommend that this Board continue the policy adopted last year, that it placed in the tax levy sufficient money to pay all the interest on the city debt, and that it prevent any increase of the bonded debt by placing in the tax levy any deficiency arising from non-payment of taxes and assessments, or from any other source.

I would also recommend that this Board urgently press upon the attention of the legislature the necessity for the passage of more efficient laws for the collection of taxes and assessments.

It is the duty of this Board to rigidly scrutinize every expenditure over which they have any control, and to secure an economical administration by the other Boards in keeping their appropriation within the smallest possible limit consistent with the public service.

I shall endeavor to perform the duties devolved upon me by law so as to secure to the citizens and taxpayers, so far as I can control the same, an honest, efficient, and economical city government.

I earnestly request the advice and assistance of all the city officials in the discharge of my duty, and I desire that every taxpayer and every citizen will feel himself free at all times to communicate with me in reference to any matter connected with the city government.

Respectfully submitted,

I. W. TAUSSIG.

OFFICERS' COMMUNICATIONS.

The Corporation Counsel, to whom was referred, July 13, 1880, the copy of report of Committee on Construction of Ravine Road Sewer Commissioners, with resolution transferring care and custody of sewer to cities of Jersey City and Hoboken, presented the following report thereon, concurred in by Malcolm W. Niven, Corporation Attorney of Hoboken:

JERSEY CITY, July 28th, 1880.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—The communication to your body of the Ravine Road Sewer Commission, which was referred to me July 13, has been considered by me, in connection with Mr. Niven, Corporation Attorney for the city of Hoboken. Both cities are interested in the matter, and we have reached a joint conclusion.

First—We are of the opinion that until the certiorari affecting the assessments have been concluded, it would be wise for the cities not to take any action accepting the sewer unless differently advised by us hereafter.

Second—if the sewer is accepted, it will be necessary for the two cities to make some arrangement in reference to cleaning the same and keeping it in repair and with a view to that end, we recommend that the Board of Works of Jersey City and the City Council of Hoboken appoint a committee to agree upon the terms upon which it shall be kept in repair and clean, so that the money that each city is to pay therefor shall be ascertained. It will be wise to appoint this committee at once, so that when the proper time comes, and the sewer is accepted by the cities all arrangements with reference to it may be fixed by agreement between the city of Hoboken and Jersey City.

Third—That the certiorari suits brought to set aside the assessments (with the exception of those brought by Jersey City) shall be defended by the law officers of the two cities acting in conjunction.

Fourth—That the certiorari brought by Jersey City against the Ravine road sewer Commissioners be defended by the Corporation Attorney of the city of Hoboken and such additional counsel as the city of Hoboken may provide, it any.

Fifth—That the assessments be collected by the Treasurer of the Commission for the present, and until further action is taken by the two cities.

Sixth—That the Treasurer of the Commission, and also the Board of Commissioners, be furnished with a place to meet in and keep their books, either at the City Hall in Jersey City or in Hoboken if they may wish, and that this be done without any expense to the Commission or to the cities.

Seventh—That as soon as the certiorari suits are ended, the unpaid assessments and the accounts of the Treasurer be turned over to the City Controller of Jersey City.

I advise that a copy of this communication be sent to the Board of Public Works of Jersey City.

Respectfully submitted,

LEON ABBETT, C. C.

I approve of the within recommendations.

MALCOLM W. NIVEN,

Corporation Attorney of Hoboken.

Resolved, That the Committee on Printing, Stationery and Supplies be authorized to procure such stationery, coal and other supplies, as may be needed for City Clerk's office and Aldermanic Chamber.

The following preamble and resolution were offered by Alderman Ringle:

Whereas, The present form of city government in Jersey City is of so complex a form, as to necessitate a much greater expenditure than is consistent with the wants of our people, and with our present debt and large amount necessary for payment of interest, with no responsible head, is very unsatisfactory, and notwithstanding the reduction in salaries to bare living prices, the rate of taxation is constantly increasing without any corresponding benefit; and,

Whereas, The taxable property in our city is

being gradually reduced by passing under the control of corporations, whose property is exempt from taxation under the laws of the State; and,

Whereas, The control and government of Jersey City should be vested in one Board only, elected by the people and responsible to the people, with proper supervision of their acts vested in a Mayor who, as a chief magistrate, should be executive and not ornamental; and

Whereas, The spirit of our State Constitution contemplates that all and every kind of property should bear its share of the public burden, and thereby equalize the taxation that all should pay; and

Whereas, The levying of taxes should and does mean their payment within a reasonable time, but the need is felt for a forced compliance; therefore

Resolved, That the Mayor be requested to appoint a committee of six, one from each Aldermanic District, to be chosen from those of our citizens who are taxpayers and fully alive to the pressing needs of our city, for the purpose of endeavoring to secure from the Legislature a plain, simple charter embodying the ideas expressed in the foregoing preamble.

The preamble and resolution were adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President.

Yeas—All the members present, ten in number.

The following report was presented, received and ordered filed:

JERSEY CITY, January 7, 1881.

To the Honorable the Mayor and Board of Aldermen of Jersey City:

The committee, appointed by his Honor the Mayor at the request of the Honorable the Board of Aldermen for the purpose of securing a more economical and simplified form of government, would respectfully report that they have carefully digested the "Act in reference to cities," reported at the last session of the Legislature by the Legislative Commission appointed for that purpose, would unanimously recommend that in their judgment the bill is well calculated to effect the end desired.

The scheme of the proposed new charter is clear and simple, placing the power and responsibility on the Mayor and Aldermen, thus holding them accountable for any maladministration, wastefulness or extravagance which may occur under the same. It is elastic in its character, making every requisite provision for small or large cities, and providing for future growth and development.

Under its provisions the city will be enabled to enforce the collection of its taxes, and thus relieve us from financial embarrassments.

For these and other reasons, we heartily recommend its passage by the Legislature.

To secure this end, we urgently advocate the printing and distribution of 3,000 copies of the proposed charter among our taxpayers for their enlightenment, and with a view to obtain their intelligent endorsement as well as their aid and assistance in its passage by the Legislature.

All of which is respectfully submitted.

OFFICERS' COMMUNICATIONS.

The following opinion of the Corporation Counsel was presented, received and ordered filed:

JERSEY CITY, April 22, 1881.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—In reference to the matter referred to me, concerning the election to fill the place of Cornelius Brett, elected as a member of the Board of Education from the Fifth District, my opinion is:

"That under section 13 of the act entitled 'An act for the control and government of the public schools in Jersey City,' approved April 4, 1873, the Board of Aldermen of Jersey City have power to order a special election in the Fifth District, to fill the vacancy which has occurred by his declination to serve for the office to which he was elected.

"I should, however, file a positive statement that he declines to serve. If he does not file such a paper, the office will be vacant after ten days from the time he received notice of his election. The date of his communication is April 19th. If the ten days count from that the Board ought not to proceed until after April 29, unless he in the meantime files a paper, in which he states positively that he declines the office, as that is the language used in section 37 of the charter of 1871. The Board must, however, give ten days' notice of the election, and there will not be time enough to do that under the resolution which you have passed, fixing the 3rd of May as the date of the registry, so that the Board will be obliged to fix a later date.

Respectfully submitted,

LEON ABBETT, Corporation Counsel.
